To Whom It May Concern,

Hello, my name is Tanner Thibert, I am the Creative Assistant as well as the Graphic Design Intern Manager at Business Connect. I had the pleasure of working with Andrew Kubik over the winter semester design internship with us. I would like to take a brief moment to discuss his work and why I believe he would be a great candidate for future employment opportunities.

Right off the bat, Andrew interviewed for his position with us and demonstrated exceptional communication skills and working design knowledge. His polite and easy going attitude was a great addition to the team and we didn't hesitate to start giving him projects of importance within our company.

Throughout his internship, Andrew took on a wide variety of graphic design projects, anything from digital asset creation, to physical banner designs to be used at our business conventions, and much more. Andrew took strong attention to detail, and always implemented our feedback with a positive attitude.

One major difference between Andrew and his fellow interns is that his design foundation, portfolio, and positive attitude exceeded the typical capability of an entry level design intern. I believe Andrew will make a valuable asset to any future organization he chooses to pursue and strongly recommend him for the position.

Sincerely,

Tanner Thibert
Creative Assistant
